The user can use and backup this **software on a single machine**. The user may not reproduce, transfer or distribute this software, or any copy, in whole or in part.

The user manual describes how to install the software package on the Windows 95/98/NT/2000. All of the drivers have it's own setup program and have the similar installation steps. This manual uses the PCI-TMC12 card to be the example.

Run the setup program of DAQ card from user's CD-ROM drive or floppy drive. The directory is according to user's drive and path. Please follow these steps to finish the software installation. Refer to Figure 1 to 4.

Figure 1. Run the appropriate setup program from CD-ROM or floppy drive.

Figure 2. Click the button “Next >”.

Figure 3. Click “**Browse...**” to change the folder that the user wants to installed and then clicks button “**Next >**”.  
This folder will contain the software for DAQ card.

Figure 4. Select the item “**Yes, I want to restart my computer now**” and click the button “**Finish**” to restart the user’s system.
